COSMETIC PACKAGING

CATALOGUE

STANDARDS

Unsere Verpackungsserien schonen Ihr Budget und positionieren dennoch Ihre Marke.

Oft sprechen wirtschaftliche und zeitliche Gründe gegen eine kunden-individuelle Formentwicklung. Deshalb haben wir ein umfassendes Standard-Programm mit mehr als 200 verschiedenen Formen entwickelt. Wenn Sie Ihre Wahl für ein Design getroffen haben, werden Sie innerhalb dieser Linie adäquate Größen - u. Funktionsvarianten für Ihr Produkt finden. Mittels individueller Farbgebung und Veredelung sorgen wir für eine klare Differenzierung, die Ihr Produkt am Point of Sale unverwechselbar präsentiert.

Zählen Sie auf die Vielfalt unserer Designs.

Our standard packaging solutions will spare your budget and position your brand.

Industrial and time related constraints often prevent the development of a fully customized solution. To overcome those limitations, we have developed an extensive range of standard packaging solutions of over 200 references. Once the design selected, you will find the adequate size and functional variants to meet your needs. Through the development of individual shades of colour and surface treatment decorations, we ensure a clear differentiation of your products at the point of sale.

You can count on our extensive portfolio of designs.

Nos séries d'emballages ménagent votre budget et positionnent, néanmoins, votre marque.

Souvent, des raisons économiques et de temps vont à l'encontre du développement de solutions spécifiques pour le client. C'est pourquoi, nous avons développé un large programme standard avec plus de 200 modèles différentes. Lorsque vous aurez choisi un design, vous trouverez, au sein de sa ligne, la taille et les variantes de fonctions adéquates. Au moyen d'une coloration et d'une finition personnalisées, nous veillons à une différenciation claire, qui présentera votre produit, sur le point de vente, de manière unique.

Comptez sur la diversité de nos designs.

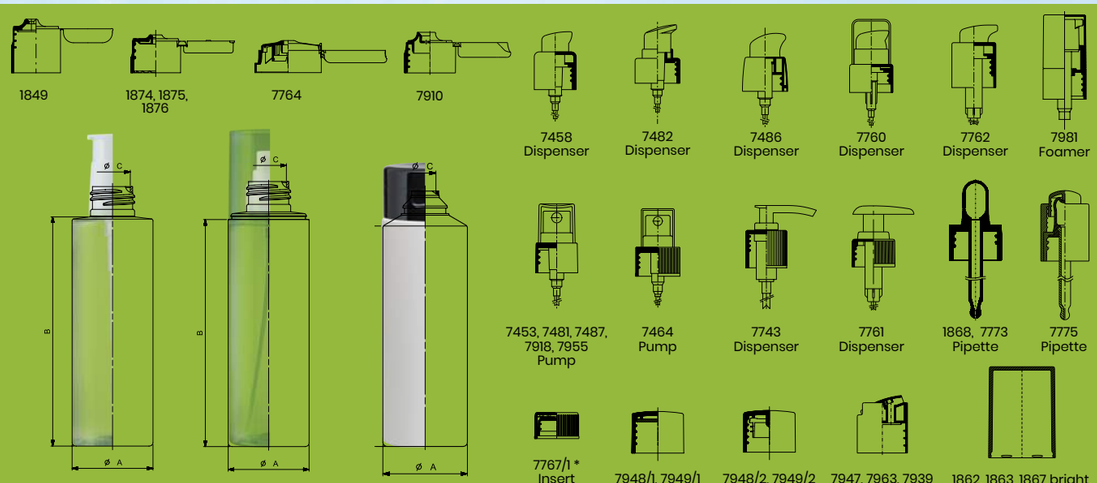
CLASSIC



* Die Funktion der Kindersicherung bezieht sich ausschließlich auf die Gesamtverpackung. Die Inverkehrbringung einer kindersicheren Verpackung erfordert grundsätzlich eine entsprechende Prüfung und Zertifizierung.
* The function of the child resistant lock always affects the overall packaging not just the cap. To bring child resistant packaging into the market, strictly requires appropriate testing and certification.
* La fonction de sécurité enfant concerne exclusivement l'emballage complet. Un contrôle et une certification appropriés sont nécessaires avant toute mise en circulation d'un emballage avec sécurité enfant.

* Die Funktion der Kindersicherung bezieht sich ausschließlich auf die Gesamtverpackung. Die Inverkehrbringung einer kindersicheren Verpackung erfordert grundsätzlich eine entsprechende Prüfung und Zertifizierung.
* The function of the child resistant lock always affects the overall packaging not just the cap. To bring child resistant packaging into the market, strictly requires appropriate testing and certification.
* La fonction de sécurité enfant concerne exclusivement l'emballage complet. Un contrôle et une certification appropriés sont nécessaires avant toute mise en circulation d'un emballage avec sécurité enfant.

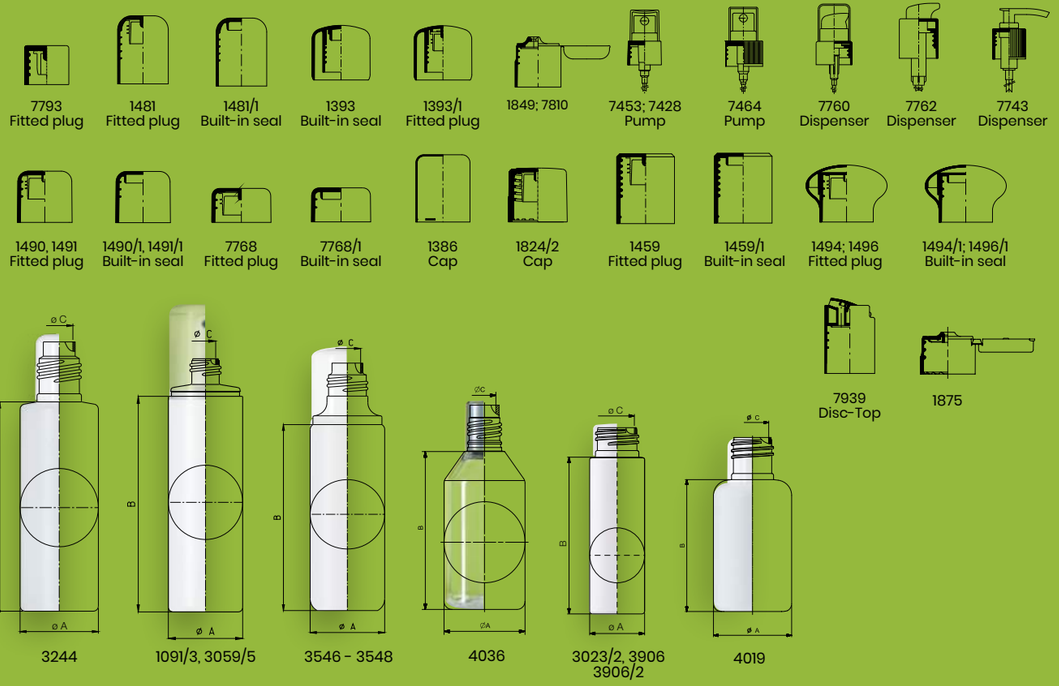
ROLL-ON



* Die Funktion der Kindersicherung bezieht sich ausschließlich auf die Gesamtverpackung. Die Inverkehrbringung einer kindersicheren Verpackung erfordert grundsätzlich eine entsprechende Prüfung und Zertifizierung.
* The function of the child resistant lock always affects the overall packaging not just the cap. To bring child resistant packaging into the market, strictly requires appropriate testing and certification.
* La fonction de sécurité enfant concerne exclusivement l'emballage complet. Un contrôle et une certification appropriés sont nécessaires avant toute mise en circulation d'un emballage avec sécurité enfant.
